A motion was made to approve $36 million for 2024 was made by Ms. Coverick asked if we have heard from Capital Projects on when a decision will be made on our requests. Ms. Thompson responded that probably not until December when the Mayor presents it to the council. Mr. Henry asked for clarification on if we are using reserve funds to fix the boiler, elevator, and HVAC issues at the Main library. Ms. Thompson responded yes, we will use $9.5 million of our reserves.
   B. Ms. Neighbours asked if we will need to go back and negotiate with Capital Projects so that we can fulfill our obligation to strategic plan initiatives as well as maintain our other branches. Mr. Henry asked after the cost of a boiler, HVAC, and elevator repairs how much will be left in our reserves. Ms. Thompson responded that approximately $18 million would be left and another $2 million will roll over from personnel due to open positions. Overall, it would leave $6 million in reserves.
   C. Ms. Neighbours asked for clarification as to whether we will benefit on moving ahead and not waiting on Capital Projects. Ms. Thompson responded yes, we have already begun the process in 2018 to assess the equipment and facilities issues and the research has been complete. The next step is for to ask the A & E Company to write the specs so we can put it in an RFP to bid. These items are considered to be building equipment so Property Management will oversee this. Ms. Neighbours asked if we have a timeline for completion. Ms. Thompson responded that it may take beyond a year. The goal is to follow each issue to completion before the next. We are aiming to minimize the amount of closures needed.
   D. A public member commented that because there is an emergency issue, why those options have not been perused. Ms. Thompson responded that the assessment has already been done and hopefully we can have a RFP completed by the end of the year. As soon as timelines are complete, we will make them available, but we are working with urgency. Mr. Henry added that to get these critical issues fixed in a timely matter, using reserve monies is essential. Ms. Neighbours added that the Governor had an emergency order that makes money available and wondered if there was a pathway that we can take to expedite some of the red tape. Mr. Henry responded that the normal procurement procedure has to be followed unless we can establish there is an emergency where we can take that avenue. Ms. LeGros added that since we have daily calls about the heat emergency, and they are demobilizing. Ms. Thompson added that the emergency procurement avenues are being taken advantage of. The City has a great track record of paying our vendors and give them references.
   E. A patron asked if the reserve request was only for the Main library and Ms. Thompson responded yes, as a result of what we found in the assessment.
   F. Ms. Neighbours asked for a recap of the timeline of when this will be presented. Ms. Thompson responded that it will be presented to City Council on our scheduled presentation date in October.
G. Ms. Coverick asked if the proposed millage was being deferred by City Council. Ms. Thompson responded that we will do a resolution that we wish it to remain the same and not rolled forward; however, due to property tax increases, we will see a slight increase in millage funds.

H. Ms. Coverick made a motion to approve the 2024 NOPL budget as proposed. Motion was seconded by Dr. Ferrouillet. Motion passed unanimously.
